

2023 HeritAP Chat

Implementing the Action Plan of the 3rd Cycle of Periodic Reporting in Asia and the Pacific

14:00-17:00, 18th October 2023

Time Zone: UTC+8

Background

Periodic Reporting is one of the core monitoring mechanisms of the World Heritage Convention. Every six to eight years or so, the States Parties are invited to submit to the World Heritage Committee a Periodic Report on the application of the World Heritage Convention in their territory. The 3rd cycle of Periodic Reporting was completed in 2021, involving all National Focal Points, site managers and Category 2 Centres from the 44 States Parties from the region at the time. The periodic report for Asia and the Pacific with the associated **Regional Framework Action Plan** (2023-2030) was presented at the extended 45th session of the World Heritage Committee where it was **endorsed**.

The 5th HeritAP Chat¹ will be dedicated to **review** the exercise, outcome and action plan of the 3rd Cycle of Periodic Reporting in Asia and the Pacific region. Like in the previous cycle, we will discuss the implementation of various components of the Action Plan (2023-2030) with a view to identify potential partners. Its main focus will be the role of the WHITRAP and the other agencies namely WHC, Advisory Bodies (ICCROM, ICOMOS and IUCN) and C2Cs in APA and enhancing the networking to implement the Regional Framework Action Plan (2023-2030).

¹ The World Heritage Institute of Training and Research for the Asia and the Pacific Region under the auspices of UNESCO (WHITRAP) is a UNESCO category 2 centre. Its mission is to strengthen the implementation of the World Heritage Convention in Asia and the Pacific region through training, research, dissemination information and network building. In order to enhance the role of networking, WHITRAP Shanghai establishes the Heritage Asia-Pacific (HeritAP), a network of heritage practitioners, which aims to promote the knowledge and experience sharing in the region. In addition to the annual meeting since 2018, WHITRAP Shanghai holds the online HeritAP Chat, with latest and most heated themes in each quarter. HeritAP Chat expects to facilitate the communication among professionals. We believe that by sharing their experiences, heritage practitioners could better respond to management and conservation of the sites.
